

# FIRECLAY SINK SELECTOR

Answer 3 simple questions to find the fireclay sink that's right for your kitchen.

## 1 WHAT SIZE CABINET DO YOU HAVE?

Measure the outside width of your cabinet base.

UP TO 30"

Best for smaller spaces.  
Look at 24"-27" sinks.

30" - 33"

Great for most kitchens.  
Look at 30"-33" sinks.

33" AND UP

More room to work and entertain.  
Look at 33"-36" sinks.

## 2 WHAT'S YOUR INSTALLATION PREFERENCE?

Choose the approach that works best for your kitchen and your project.

### FULL REMODEL?

No problem with countertop removal.

#### UNDERMOUNT

- Seamless, clean look
- Requires countertop removal
- Best for new builds or full remodels

### EASIER REPLACEMENT?

Keep countertop. Looking for a classic drop-in sink.

#### TRADITIONAL DROP-IN

- Installs from above the counter
- Visible rim
- Fewer farmhouse style options

### UPGRADE WITHOUT A FULL REMODEL?

Keep countertop. Want a farmhouse look with easier install.

#### QUICK-FIT® DROP-IN

- Farmhouse style apron front
- Installs from above
- Minimal cabinet modification
- DIY-friendly (about an hour)

## 3 HOW DO YOU USE YOUR SINK MOST?

Pick the configuration that fits your kitchen lifestyle.

### MAXIMUM SPACE?

Open, uninterrupted space for big tasks.

#### SINGLE BOWL

Great for large pots, baking sheets and everyday flexibility.

### MULTI-TASKING?

Separate areas for washing and rinsing.

#### DOUBLE BOWL

Stay organized and keep clean and dirty separate.

### LOVE TO PREP?

Built-in ledges and accessories for efficiency.

#### WORKSTATION

Streamline prep, cook and clean—all in one smart setup.

## YOUR BEST MATCH

Combine your size, installation style and configuration to find the perfect fireclay sink for your kitchen.

SMALL KITCHEN  
SIMPLE UPGRADE

26" Quick-Fit®  
Single Bowl

Easy upgrade.  
Big impact.
